

COURSE FEE: £3,995 (£3,595.50 early bird till 26/03/2025)

Learning aims and objectives for the sinus and bone augmentation course:

Develop hands-on knowledge of surgical anatomy of the head and neck and explore implant-related anatomy, vital structures, blood vessels, nerves and tissue spaces on fresh frozen cadavers. Develop an understanding of diagnosis of sinus diseases and their management.

Carry out crestal and lateral approach sinus and bone grafting surgery on fresh frozen cadaveric specimens, block and plate augmentation with harvesting techniques from chin and ramus and fixation with various techniques. Hints and tips to provide predictable results and avoid complications.

Use of various particulate and membrane biomaterials. Learn Bonering and CAD CAM Bonebuilder bone augmentation techniques.

Learn how to use A-PRF™ technique in bone regeneration. Learn to prevent, manage and resolve complications involved with sinus and bone augmentation surgery.

The Royal Society of Medicine, King's College London and LCIAD

LCIAD Academy | Sinus and Bone Augmentation Hands-on Cadaver Course (3-5 July 2025)

Level Intermediate to advanced

18 hours of CPD

The UK's longest running and most comprehensive sinus augmentation and hands-on cadaver surgical training course.

Day 1 – Thursday 3rd July 2025

Didactic teaching with lectures and videos at the British Dental Association

The Royal Society of Medicine, 1 Wimpole Street, London W1G 0AE

08:45 – Course registration

09:00 – Dr Feran: Introduction and sinus augmentation

10:00 – Dr Toma: Anatomy in relation to para-nasal sinuses, sinus pathology and ENT perspective

10:45 Coffee break

11:15 – Miss Little: Odontogenic sinusitis and management of advanced sinus pathology

12:00 – Dr Feran: Sinus augmentation techniques – principals

13:00 – 14:00 lunch

14:00 – Dr Feran: Sinus augmentation techniques and variations

15:30 – Coffee break

16:00 – Dr Feran: Sinus augmentation techniques and complications

17:30 – Questions and day ends

Day 2 – Friday 4th July 2025

Full day on fresh frozen cadavers at King's College London Dissecting Room

King's College London, Dissecting Room, Hodgkin Building, Guy's Campus, London SE1 1UL

08:45 – 17:00 Full day of practical cadaveric dissection and augmentation techniques practical including live demonstrations and hands-on practice of: sinus augmentation, block grafting, particulate grafting, use of biomaterials, use of pin and screw fixation and bonering augmentation. Cadavers will be available for you to explore and dissect as required.

Day 3 – Saturday 5th July 2025

Live sinus augmentation surgery and lectures at LCIAD

LCIAD, 28 Wimpole Street, London W1G 8GW

09:00 – Course registration

09:30 – Dr Feran: An introduction to today's patient, a brief history of their case and why we are performing a Sinus Lift today.

10:00 – Dr Feran: Maxillary sinus augmentation surgery, live interactive surgical demonstration.

10:30 – Coffee break

11:00 – Dr Feran: Maxillary sinus augmentation surgery, live interactive surgical demonstration (continued).

12:00 – Lunch

13:00 – Dr Feran: Biomaterials in dental bone augmentation

15:30 – Questions and course end

Dr Koray Feran

Clinical Director
and Principal
Dental Surgeon

Miss Sarah Little
